Timing of meeting sounds good. I don't really have any additional agenda thoughts.

I think for this first year, meetings would be held more frequently than twice/year: March, May, October, and then probably another one next March. In the meantime I'm going to meet with John Callan, Ken Maas, Rob Ghiglieri and Rory Lamp to discuss mutual goals and methods, in preparation for the next meeting in early May.

I will send out more information on the meeting and other related topics in the near future, but it looks like May 6, 7 or 8 might be shaping up as good possibilities for the next meeting.

For the next meeting I would aim for more specific site discussions and decisions to prepare for possible RAMS funding, and I would like to discuss the sharing of site information, with and without database sharing.

Do you have agenda or timing thoughts?

Thanks,

Jeryl R. Gardner, P.E., C.E.M.

No not really, other than I think it was left a little vague about next meeting dates. It seemed like people agreed on 2x per year, but with a meeting soon to address possible RAMS funding?

By the way, do you have any thoughts or comments you would like to be incorporated into the notes that Allie is capturing for me to relay to the group shortly?

Thanks again for your participation and voice of support yesterday!

Jeryl

Subject: NAMLET meeting thank you

Thanks to everyone for attending the inaugural Nevada Abandoned Mine Lands Environmental Team meeting today.

I think it was a great meeting and I acknowledge each of you for contributing to that success.

We will build on this camaraderie to create more AML team successes down the road.

Within a week I will circulate to the group: a copy of the sign-in sheet, notes from the meeting, the NDEP site ranking/selection methodology, and a pdf of the NDEP AML map.

If you would like to have your meeting notes added to the group notes please send me an email with your thoughts and notes or requests.

Within a couple of weeks I will start proposing next meeting date suggestions, and possible agenda topics.

If you have ideas/suggestions for that meeting and agenda let me know that as well.

If you have any other suggestions you would like to relay to me or to the group feel free to do that.

Without overstating it, and recognizing that AML work in Nevada has been going on for thirty years plus, I believe that greater collaborative AML work in Nevada is an idea whose time has come.

Thank you again for you interest, participation, and team support.

I'll be in touch soon.

Jeryl

Subject: NAMLET meeting invitation, agenda & other info

Importance: High

Hi NAMLET team members and interested parties,

Thank you for your interest in the Nevada Abandoned Mine Lands Environmental Team (NAMLET) and participating in the first meeting.

As stated in previous emails the purpose of this inaugural meeting is to reacquaint and introduce ourselves, our individual agencies/organizations/companies, our roles in AML work, and to identify our collaborative purposes, goals and objectives.

The meeting is scheduled for March 4, 2014 from 9-11:30 am, in Carson City, in the NDOT Building, on third floor (note the change from the previous email).

Attached is a broad agenda for the meeting, and other information including directions, and toll-free call-in information for those who are interested but cannot attend in person.

I look forward to seeing you (or hearing from you) at the meeting, and I look forward to working with all of you to help re-create a successful interagency AML team that more efficiently identifies and addresses problems associated with AML sites in Nevada.

Please RSVP whether you are attending in person, or via teleconference, and whether you will have lunch with us at Red's after the meeting.

If I've missed anyone, please forward this invitation along to them, with a request to RSVP.

I need a final count by February 27.

Thanks,

Jeryl
